The WritersUA User Assistance Tools Survey

The WritersUA User Assistance Tools Survey

WritersUA is pleased to announce the launch of our User Assistance Tools Survey. The topic of Tools has previously been included with our Skills and Technologies Survey. This Tools Survey is designed to provide our community with a guide to the relative popularity and satisfaction of a number of tools.

The survey only works with input from you. If you specialize in the area of software user assistance, please take a few moments to contribute. You can answer as much or as little of the survey as you choose. This is the only page.

As always, the results will be publicly posted on this very same web site for your free reference. (Our 2008/9 survey results are still available.)

Thank you for participating in the User Assistance Tools Survey!

This survey requires you to enter your name and a valid email address. By default, this information will be deleted as soon as we process the survey responses. If you would like us to use this information to contact you about future surveys and news, select the Opt In checkbox.
